SKILLS

- Issue Tracking
- Java Development
- Python
- Javascript
- PHP Expert
- Graphic Designs
- Django
- Flutter/Dart

EDUCATION

06/2021

Code With Mosh

Complete Python Mastery: Coding

09/2018

(Now) Delta State University of Science and Technology | Ozoro

Higher National Diploma Computer Science

10/2014

Pleasant Training Institute | Ughelli

Certificate of Higher Education

- Completed Professional development in Coding
- Relevant Coursework completed: Visual Basic & Java

PROFESSIONAL SUMMARY

Effective and highly skilled leader in the software development arena, offering expertise in leading well-developed teams. Committed to meeting project milestones in a timely fashion. Desires an opportunity to develop desktop applications for a winning enterprise. Highly effective software developer offering a wealth of more than 8 years of expertise. A valuable team player who is also personable and dedicated. Seeking the chance to bring further success to an established organization through testing, deployment, and software debugging. A multi-faceted software developer who is knowledgeable in most relevant software development tools.

WORK HISTORY

01/2019 - Current

BLW Campus Ministry | Magodo

Senior Software Engineer

- Improved coding efficiency by 100%, securing code development through root cause analysis and innovative problem-solving.
- Developed internal and public-facing APIs to increase user experience scores by 120%.
- Developed modular software functionality through Appraisal System Software to meet Company requirements.
- Incorporated new technologies such as VOIP to upgrade existing reporting processes and infrastructure.
- Increased software performance by 150% by conducting static analysis to devise strategic improvements in response to high churn, coupling and cyclomatic complexity.
- Supervised entire software development lifecycle from start to finish.
- Technically lead a team of 2, improving standards through design reviews, pair programming, and coding reviews.
- Designed and built scalable APIs to increase workflow by 50%.
- Designed and developed reports in SQL Server Reporting Services.
- Improved code quality by 90% through automated testing using python.
- Trained and managed a team of 2 developers and discussed issues in order to provide resolution and utilize best practices.
- Led a team of developers in the analysis and rebuild of software from the ground up through to completion.
- Increased user experience scores by 100% by practicing innovative forward-thinking to overcome software challenges creatively.

10/2018 - Current

Foosaweb Tech | Berger

Software Engineering Professional

- Responsible for all software development issues, both web, and mobile app developments. Write code on Flutter & Dart, Python, and PHP
- Collaborated with BLW Campus ministry Software unit team members to design new applications system to enhance client requirements for mobile computing capabilities.
- Modified existing web software to correct coding errors, upgrade interfaces and improve overall performance.
- Designed Web application components.
- Led a team of 5 developers in the analysis and rebuild of software from the ground up through to completion.
- Successfully managed architecture deliverables including principles, capability map, transversal process, integration catalog, information model, application map, and reference architectures.
- Created databases, data entry systems, web forms, and other applications for diverse uses.
- Analyzed and designed relational databases using MySQL.
- Wrote and implemented scripts to enhance user experience and integrated scripts with JavaScript.
- Designed Web-based multi-threaded admin web applications.
- Interfaced with a cross-functional team of business analysts, developers, and technical support professionals to determine a comprehensive list of requirement specifications for new applications.
